

# *New Ralco Employee*

## **Ralco Nutrition Welcomes Dr. Dennis Liptrap**

### **Dr. Dennis Liptrap — Ralco Nutrition Swine Technical Sales**

It is with great pleasure and excitement that Ralco Nutrition welcomes industry veteran, Dr. Dennis Liptrap, as the newest member of the Swine Technical Sales team.

Dr. Liptrap holds a Ph.D. in swine nutrition and physiology from Michigan State. He received his B.S. in Animal Science from the University of Kentucky where he also served as a member of the faculty for more than 23 years as a swine extension specialist. During his tenure at the University of Kentucky, Dr. Liptrap developed a practical and coordinated interdisciplinary approach to problem solving, which included veterinarians, engineers, swine economists and swine nutritionists. He focused on efficiencies and “making the whole business work,” he said.

In 1992 Dr. Liptrap joined the swine production industry directly when he became a partner in a large farrow-to-finish operation. In 1998 Dr. Liptrap began to offer technical services for the feed industry.

At Ralco Nutrition, Dr. Liptrap will formulate swine diets, develop feeding programs (feed budgets) and use his expertise and vast experience trouble-shooting production issues.

Dr. Liptrap will be focusing his efforts primarily on the eastern portion of the U.S., working mainly in Indiana, Ohio and Michigan.

“The bigger issue is the 40 years of experience that I have observing the swine industry evolve and the pig evolve,” Dr. Liptrap said. “You listen to the pigs and you listen to the people.”

Dr. Liptrap will continue to live in Kentucky with Virginia, his wife of 43 years. They have two daughters and five grandchildren. Dr. Liptrap is a fan of the U of K Wildcats basketball and football teams, while following his grandchildren’s activities.

Dr. Liptrap said he is looking forward to working at Ralco Nutrition.

“I have a good opinion of the people involved at Ralco. I have known some of them for many years,” he said.
