

**FOR IMMEDIATE RELEASE**

**Ralco Nutrition, The Leader in Science-Based, Natural Livestock Nutrition,  
Announces that Regano® 500 Received OMRI Listing.**

*Marshall, MN — April 10, 2009* - Regano® 500, a natural, safe and economical feed flavor from Ralco Nutrition, Inc., has been listed by the Organic Materials Review Institute (OMRI). Regano® 500 may be used in certified organic production or food processing and handling according to the USDA National Organic Program Rule.

“We are really excited about OMRI certification Of Regano® 500. Because of the wealth of research behind oregano, Regano® 500 is one of the first natural products to be used significantly and consistently in mainstream poultry and swine production,” said Ralco President Jon Knochenmus. “From niche production to integrated production, Regano® 500 is a cost effective nutrition management tool for producers of all size. Now, with OMRI certification it is set to become a standard product for organic production.”

Regano® 500 is a unique and proprietary product, developed by Ralco Nutrition, Inc., that contains essential oils extracted from cultivated Greek oregano plants. As an herbal feed flavor, Regano® has antioxidant properties that promote healthy gut function during times of challenge and stress.

Regano® 500 is an all-natural and pharmaceutical-grade product that is subjected to rigorous quality control. It is extracted by a unique steam process that guarantees purity and the highest concentration of bioactive components.

Ralco Nutrition, Inc. is a trusted source of knowledge, innovation and quality worldwide. Ralco Nutrition, Inc. helps customers meet changing demands in animal nutrition and health through the practical application of knowledge and innovation.
